**KENZIE ACADEMY**

---

Hi Future Kenzie Grad,

We're all ending 2020 thanks to a lot of self care. We think it's fitting to continue that

trend into 2021. That's why we want to talk to you about becoming a certified Software Engineer or UX Designer!

Sounds ideal, but... how? An easy first step is to join us for our **Online Open House on Thursday, January 7th, either from 6 p.m. - 7 p.m. Eastern or 6 p.m. - 7 p.m. Pacific.**

**Sit back and relax as we tell you all about:**

- **The value of a tech education for 2021:** Becoming a certified Software Engineer or UX Designer can open up a lot of doors for you.
- **Kenzie grads outcomes:** See alumni projects, hear about their Kenzie experiences, and learn about their post-grad career outcomes.
- **Accessible financing options:** We offer a variety of financing options to make your education more accessible and affordable than typical higher ed programs.
- **Paths to success:** Our certifications are backed by Butler University Executive Education. Our partnership with WGU's online program means your Kenzie education can count as credits towards a traditional degree.
- **A New Kind of Classroom:** We've ditched lectures and opt for hands-on projects so you can master the material while collaborating and networking with the Kenzie community of industry professionals.

We'll see you online!

**Register for the Online Open House**

Cheers,

Team Kenzie
